

Entrega tutorial

Enlace GitHub: <https://github.com/JaraCalle/courseprojects>

Pantallazo de la última sección implementada corriendo local:

The screenshot shows a web browser window titled "Library App" at the URL <http://localhost:5173/books/3>. The main content area displays a book detail page for "Sapiens". The book information includes:

- Title: Sapiens
- Category: History
- Price: \$19 COP
- Stock: 2

Below the book information is a "Reviews" section. It contains a form for adding a new review:

- Add a review
- Rating: 5 stars
- Comment: Write your review...
- Your name (optional): Name
- Post review button

At the bottom of the reviews section, a message reads: "No reviews yet. Be the first to review!"

The left sidebar of the application is titled "Library Dashboard" and includes links for Home, About, Books, and Contact. A user profile icon for "Admin User" is also present.

This screenshot shows the same book detail page for "Sapiens" as the previous one, but it now includes two reviews listed below the review form:

- Carol Reader** (5 stars) - "Mind-blowing perspective on human history."
- Juan José Jara Calle** (5 stars) - "Melo caramelito" (24 feb de 2026)

The rest of the page, including the book information and the review form, remains identical to the first screenshot.
